

royalLINE

Solvent Based Paint

Crown The Road with Royal Performance

Paint That Fit Your Goals

RoyalLINE is a fast-drying, SOLVENT and LOW VOC marking paint for concrete, brick, and bituminous surfaces. RoyalLINE has been designed for painting centerlines, edge lines and auxiliary markings of highways, runways, crosswalks, stop zones, parking lots, storage zones, traffic aisles, etc. **RoyalLINE offers colors that pop and pre-filtered material that runs smooth, extending equipment longevity and road safety!**

SOLVENT BASED TRAFFIC MARKING PAINT

RoyalLine PRO provides increased longevity and is highly tolerant to severe weather conditions and promotes excellent block resistance.

- More forgiving surface preparation
- Wider temperature window for application
- Suitable for colder temperatures
- Promotes a longer service life and extended durability
- Quick dry time

HIGH PERFORMANCE SOLVENT BASED ZONE MARKING PAINT

RoyalLine ELITE exceeds the performance and durability of industry standards. ELITE offers increased color retention and adhesion, while resisting abrasion, fade and dirt pick-up.

- Higher binder content
- Most durable acrylic
- Stays cleaner and last longer
- Less re-striping needed
- Resists everyday wear and tear
- Excellent color retention properties
- Exhibits a smoother appearance.

When traffic marking paint is applied to areas that see high pedestrian traffic, such as crosswalks, parking lots, or sidewalks, the addition of an appropriate aggregate or anti-slip additive will help enhance safety for pedestrians.
